PROFESSIONAL SUMMARY

Mechatronics Engineer and Project Management Specialist with 8+ years of engineering and software architecture trajectory across the financial and enterprise sectors. Google Cloud Certified Associate Cloud Engineer (ACE). Proven expert in designing high-throughput Clean Architectures (Hexagonal, DDD), microservices, DevSecOps pipelines, and enterprise Generative AI multi-agent workflows using LangChain, LangGraph, and Google Cloud BigQuery. Track record of translating business goals into resilient, secure, high-availability architectures (99.99% SLA) under strict financial compliance (OWASP, PCI-DSS).

PROFESSIONAL EXPERIENCE

Tech Lead & Software Architect · Banco de Bogotá (Grupo AVAL)

Feb. 2022 – Present | Bogotá, Colombia

- **Technical Leadership & Architecture:** Directed the engineering team responsible for the architectural design and scaling of the In-House Corporate Banking CRM, centralizing commercial operations with 99.99% SLA availability in mission-critical banking.
- **Enterprise Generative AI:** Designed and integrated autonomous multi-agent workflows using LangChain and LangGraph connected to vector databases and BigQuery, automating financial analysis and slashing query latency by 40%.
- **Microservices & Clean Architecture:** Defined Hexagonal and Domain-Driven Design (DDD) standards across Java (Spring Boot), Node.js, and Python microservices, guaranteeing low latency, decoupling, and high concurrency.
- **DevSecOps & Cloud Resilience:** Implemented automated CI/CD pipelines with SonarQube static code analysis and Zero-Downtime deployments on Kubernetes and Cloud Run, cutting production deployment incidents by 38%.
- **Banking Security & Compliance:** Enforced strict sensitive financial data governance aligning with OWASP Top 10, OAuth2/OIDC authentication protocols, regulatory audits, and rigorous peer code reviews.
- **Engineering Governance & Mentorship:** Provided technical direction and mentorship to software engineers, aligned tech roadmaps with technology VPs, and promoted continuous Agile delivery (Scrum, Kanban).

PREVIOUS EXPERIENCE

Junior Software Developer / Digital Transformation · **Banco de Bogotá** **Jul. 2021 – Jan. 2022 | Bogotá, Colombia**

- **Core Development & REST APIs:** Built and maintained reactive frontend modules in Angular and RESTful backend microservices within the bank's digital transformation roadmap.
- **Testing & Quality Assurance:** Implemented automated unit and integration tests, ensuring functional reliability and backward compatibility with core banking systems.
- **Agile Methodologies & CI/CD:** Actively contributed to Scrum ceremonies, two-week sprint releases, and version control workflows under Git and Azure DevOps.

OFFICIAL CERTIFICATIONS & HONORS

Google Cloud Certified: Associate Cloud Engineer (ACE)
Emisor: Google Cloud · Vigencia: 2026 – 2029 · Credly ID: 189954

- **AWS Academy Graduate - Cloud Foundations & ML · AWS Academy / Univ. de los Andes** Jul. 2022
- **GCP Skill Badge: Implement Load Balancing on Compute Engine · Google Cloud Skills Boost** Dec. 2025
- **HackaPrompt GenAI & LLM Security Competitor · Microsoft & Banco de Bogotá** 2024

HIGHER EDUCATION

Postgraduate Specialization in Project Management · Universidad de Boyacá **Aug. 2023 | Tunja, Colombia**
Focus on Agile Frameworks (Scrum, Kanban), Risk Assessment, and PMI Standards

B.S. in Mechatronics Engineering · Universidad de Boyacá **Jul. 2022 | Tunja, Colombia**
Intelligent Control, Process Automation, Embedded Systems, C/C++, and IT Tools

Management Competencies I · Universidad de los Andes **Feb. 2025 | Bogotá, Colombia**
Executive leadership, strategic negotiation, and decision-making in complex environments

TECHNICAL SKILLS & ARCHITECTURE

Architecture & Cloud: Google Cloud Platform (GCP ACE), AWS, Azure, Microservices, Clean Architecture (Hexagonal), Kubernetes, Docker, Terraform (IaC).

Artificial Intelligence: LangChain, LangGraph, LLMs (Gemini, OpenAI), Vector DBs, Enterprise RAG, BigQuery ML, Prompt Engineering.

Languages & Backend: Java (Spring Boot), Python (FastAPI), Node.js (Express), TypeScript, SQL (PostgreSQL, BigQuery, SQL Server), Bash Scripting.

Frontend & Web: Angular, TypeScript, JavaScript, HTML5, SCSS, Responsive UI, RESTful API Integration.

DevSecOps & Security: CI/CD Pipelines, OWASP Top 10, OAuth2 / OIDC, SonarQube, Git, Automated Testing, Zero-Downtime Deployments.

Leadership & Management: Scrum, Kanban, Technical Leadership, Code Reviews, Roadmap Alignment, Project Management (PMI).

Languages: Spanish (Native), English (Professional Working Proficiency / B2), Portuguese (Elementary / A2).
